# Diana Garden

The Diana Garden, with an extraordinary evocative name, gives our hotel its unique character and is what has made us, over time, an iconic point of reference for Milanese society.

A special haven from the chaos of the city, this flower-filled corner is the ideal place for taking a break and relaxing in the shade of its ancient trees. Acknowledged for decades as one of the main locations in the city for an aperitif or signature cocktails after dinner, over the years it has become established as the perfect setting for open-air events, cocktails and receptions.

The garden of 1,000 sqm has been divided into different areas, all connected to one another but equipped with all the fittings and services required for it to be used even for exclusive use.

# Diana Garden Restaurant

As soon as you cross the threshold, you are welcomed into a space where designer furnishings converse with geometric patterns, and in which large windows guarantee the seamless connection between inside and outside. The Diana Garden Restaurant is the ideal location for business lunches or private and corporate dinners, offering a menu created by our Executive Chef Roberto Caruso, which features the excellence of Italian cuisine.

# Diana Garden Bar

Beating heart of the hotel, the Diana Garden Bar is a large and bright area with a convivial atmosphere setting the tone. Open every day with different food concepts and fine mixology, it can be transformed into the ideal setting for private events, parties, fashion shows and product presentations. The spectacular view over the private garden makes the atmosphere even more delightful.
